Front End developer

- Implemented optimization to enhance the responsiveness of the entire website, ensuring a seamless user experience across various devices and screen sizes
- Ensure the proper functionality of all scripts across all pages, and implement necessary adjustments to guarantee their optimal functionality.

English Teacher   2021 2022

Help children to understand English and love it by creating a joyful environment for them to learn.

INTERAPERSONAL SKILLS

- Communication	- Organized	- Presentation
- Teamwork	- Search	- Active Learning

PROJECTS

- **Netflix Clone**
  This project utilizes the Movie Database (TMDb) API to display a variety of movies. Users can add movies to their favorites, and these selections are stored in their profiles, which are retrieved from Firestore.
  Technologies: React, Tailwind, Firebase, and API
  GitHub link: https://github.com/Mariamtarek514/netflix

  Live: https://reacty-netflixy-12.web.app/

- **Portfolio**
  Portfolio I implemented React Paginate for efficient project pagination, integrated a straightforward filtration system and introduced both Dark mode and light mode for enhanced user experience.
  Technologies: React, and Tailwind
  GitHub link: https://github.com/Mariamtarek514/Portfolio-v3

  Live: https://mariam-tarek-514.netlify.app/

- **Delizus**
  Delizus is a restaurant website that features the restaurant's menu, upcoming events, and detailed information about the establishment.
  Technologies: HTML, CSS, and JavaScript
  GitHub link: https://github.com/Mariamtarek514/Delizus
  Live: https://mariamtarek514.github.io/Delizus/
